

**\*NOTICE REGARDING "ADD CALIBERS" TO BSIS FIREARMS PERMIT\***

The Bureau of Security & Investigative Services (Bureau) has suspended the practice of adding a caliber on a current BSIS Firearms Permit. Any "Add Caliber" requests postmarked after June 3, 2016 will not be processed.

During the recent revisions of the Firearms Permit Application, it was noted that the process used to add a caliber to an existing firearms permit is not specified in law.

The Bureau is researching how to address this issue as soon as possible. We appreciate your patience and will provide an update once this issue has been resolved.
